Why Breakout Sessions are Significant?

(MAY 9, 2018; BY CPG CREW)

(<https://cpgagency.com/blog/15-ways-to-engage-your-people-at-breakout-session/>)

Let's be honest: When it comes to your annual business conference, the real learning happens at the Breakout sessions. The general session might inspire and the networking may be fun, but breakouts are the time where attendees are given tactical ideas they can bring back to their work – sort of like a productivity gift bag. But like a gift bag, it's only as good as what's inside. If you're skimping on your breakouts' design and execution, your attendees won't have much to show for their trip besides a few scribbled notes and awkward elbow brushes. No thanks.

These sessions need to meet your attendees halfway and arm them with the knowledge they need to succeed. Here are fifteen essential breakout session ideas for your next corporate event.

Breakout of the Ordinary

At the end of the day, find the breakout session strategy that matches your brand. Tie it to your overall theme and let your participants dictate what they will learn. By including design thinking (and your people) early in the process, you'll set yourself up for success every time.
